

Creating Facility

Different Facility or user location can be created to keep relevant content accessible to relevant users and the user actions can be monitored facility wise from the single mCMS portal

A screenshot of the mCMS portal's 'FACILITY' management page. The page has a dark header with 'anakage' and 'Logout' on the right. A left sidebar contains a navigation menu with items like 'User Feedbacks', 'Customization', 'Notice Board', 'Categories', 'Sub-Categories', 'Solutions', 'Version Management', 'Users', 'Facility', 'Pages', and 'Audit Events'. The 'Facility' item is highlighted. The main content area shows a table with columns: Sr.No., Name, Location Code, Pages, Total License, Used License, Unused License, Theme, Style, and SolutionCard. A search bar is located above the table. A black callout box with white text and an arrow points to the 'Facility' menu item.

To add a new facility, click here

Sr.No.	Name	Location Code	Pages	Total License	Used License	Unused License	Theme	Style	SolutionCard
100			100	100	0	100	default	style-2	default
100			1000	1000	63	937	default	style-2	default
1			1098	0	1098		default	default	default
50			1	0	1		default	default	default
50			100	2	98		default	default	default
500			10	0	10		default	default	default
1			7	0	7		default	default	default

There should be a location code assigned in Alphabets, not in numbers

Insert the maximum number of pages required for the facility. The html pages can be created from this portal only

The screenshot shows the 'CREATE FACILITY' form with the following fields and values:

Name *	Bangalore
Location Code *	
Pages Number *	
License Number *	
Theme	default
Style	default
Solution Card	default
Publish	YES

Annotations include a callout box pointing to the 'Location Code' field and another pointing to the 'Pages Number' field. A 'Click here' button points to the '+ FACILITY' button in the top right corner.

The screenshot shows the 'CREATE FACILITY' form with the following fields and values:

Name *	
Location Code *	
Pages Number *	
License Number *	
Theme	default
Style	default
Solution Card	default
Publish	YES

The 'SAVE' button is highlighted with a callout box that says: 'Save after filling up the options. After creating facility you can add users and solutions to that facility'. The 'CANCEL' button is also visible next to it.
